## Description

*VIO L1610 supports Collisioni Festival 2021 in Alba, Italy. The new edition of Collisioni Festival starts from great music taking advantage of a serene desire for redemption; music must come back, beautiful, genuine, and brazen more than ever.*

*As the first live-show of the season, Patti Smith arrives in Alba, jewel-city in Piedmont and fundamental stop thanks to Collisioni, able to attract the most renowned artists of the musical scene every year, so, the opening night is in the hands of the rock guru. For dBTechnologies it is the perfect occasion to unveil once again the potentialities of the line array system VIO L1610, new entry of the VIO family that made its official debut in 2020 by supporting the live tour of the Italian artist Elisa during a summer marked by longed for live concerts strictly set outdoors.*

*Alongside the Main also another great novelty marked VIO: presented in 2021 as an advancement of the famous VIO X family, the VIO X206 loudspeaker officially enters the configuration. The acoustic project has been realized and provided by A.T.S. service, a highly specialized a rental company.*

*The PA configuration consists of:*

*24 VIO L1610 + 12 VIO S218*

*6 VIO X206 used as front fill*

*4 VIO L208 + 2 VIO S118 per side as side fill of the stage.*

*The five evenings planned for Collisioni Festival 2021 are, as per tradition, a meeting of styles and generations: after the opening of Patti Smith, it will be the turn of Zuccheri Fornaciari, Paolo Conte, and the newest generation of Italian artists Madame, Sangiovanni, Massimo Pericolo, and Fiorella Mannoia.*
